

This sweet boy needs a home—A sweet 7 year old Australian Shepard mix with a willing, big heart.

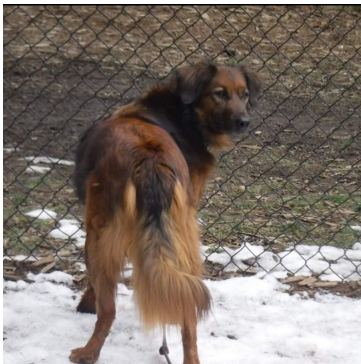

Kananie was adopted from Everett Animal Shelter and was so happy to come to our home. After years of various breeds of dogs (labs, retriever types) we are finding this herding breed is more than we want to handle. He has come such a long way with us these past two years and we can see so much potential for someone to work with him. He will be loyal and loving.

Upon his arrival to us we found he was very unsure of men and is still a noisy handful when someone comes to our door. He has learned trust around the men in our life and is great around 5 & 7 year old grandkids. He is so fun to watch 'play' with their retriever puppy.

We would love him to find someone that will take him as a project and show him he can trust them. He does need a job, as most of you know with herding breeds.

We are retired and want to travel and he is quite 'anxious' to be left home (although he has never damaged the house in any way except a little 'poo' when we didn't walk him prior to leaving.)

We will gladly share the pro's and the con's of Kanani we really want him to be happy and be able to communicate with his new family.
