

# Cassie

Cassie is a medium size spayed 5 year old Mountain Dog that was rescued from Taiwan. She arrived in Seattle fearful and shy. Cassie is slow to warm up to strangers, but once she feels comfortable she bonds quickly and is very loyal. Cassie is a quick learner and is eager to please her owner. Cassie relishes belly rubs, sniffing around, play time with friendly dogs at the Dog Park, and walks. While Cassie is content lying around the house, she also enjoys outdoor time including hiking, running, camping, and running around in the snow. Due to her fearful nature, Cassie needs to be placed in a kid-free home with experienced adopters.

Cassie has completed the 5-week board and train program at the Academy of Canine Behavior. Included in the program she is eligible for free private lessons at the Academy for the rest of her life to help her new family learn how to communicate with her.
